Cybercrime is one of the fastest-growing risks for businesses in Ireland, with attacks becoming more frequent, sophisticated, and financial devastating. Whether you operate a small business or a large corporation no organisation is immune.

Cyber Prepare by Campion Insurance: Assess & Strengthen Your Cyber Resilience

The first step in protecting your business is understanding your cybersecurity vulnerabilities. Cyber Prepare is an assessment tool designed to help Irish businesses evaluate their cyber risk exposure and implement stronger security measures.

How Cyber Prepare Works:

Interactive Cyber Risk Assessment

A structured questionnaire helps businesses identify weaknesses in their cybersecurity practices.

Attackers' Eye View Scan

A non-invasive scan analyses a business's online presence to detect vulnerabilities from a hacker's perspective.

Dashboard & Reporting

Businesses receive a detailed cyber risk report with recommendations for improving security.

With Cyber Prepare, businesses can gain a clear understanding of their risk profile and take proactive steps to mitigate threats before an attack occurs.

Cyber Insurance:
Financial Protection for Your Business

Even with strong cybersecurity measures in place, Cybercrime continues to rise in terms of frequency, cost and complexity, affecting private Individuals and organisations alike.

Despite this, the take up of Cyber Insurance remains low. In fact, fewer than 13%* of small and medium-sized businesses purchase insurance to cover one of their most valuable assets – data.

“

The first thing Campion Insurance did when I approached them about the need for cyber insurance was advise me to undertake a cyber risk assessment for my business and I’m very glad I did. The report generated by CyberPrepare was comprehensive, both from an attacker and defender point of view and gave real insight into the risks my business faced.
