

AIG BoxClever Insurance

What is it?

We understand each driver is unique and no two drivers drive the same. We believe Motor insurance should be personalised based on how you drive and our unique technology encourages safer driving and enables improvements in driving behaviour.

Black Box Insurance or telematics insurance is is an innovative program where a telematics device is fitted to your car. The telematics device tracks aspects of your driving and in turn helps you become a better driver as well as offering additional safety and anti-theft features.

A personalised safe-driving discount at renewal.

Qualify for personalised discounts based on how you drive!

How does it help me?

Drivers can avail of this competitively priced car insurance product which provides you with an unlimited kilometre allowance from day one.

- become a better, safer driver
- build your no claims bonus
- personal discount based on your driving
- access to ratemydrive customer portal
- anti-theft security

You'll also receive monthly e-mails showing you how well you are driving with tips on how to improve.

Ask your broker today

How do I buy this product?

Simply get a quote from your broker today and they'll take care of everything.

We'll contact you once you've purchased your policy and organise a visit from our quality team of approved installers who will fit your telematics black box within 14 days of your policy purchase. Don't worry, you are insured during this period.

The device can usually be located behind the dashboard or on the battery and it will not affect driving or have any impact on your journey.

How does it Work?

The BoxClever black box device collects a range of data about your driving. This data typically contains...

- Your speed
- Smoothness of accelerations/ decelerations
- Sharpness of turns
- The length of your journeys
- How often you drive

We are committed to keeping your data safe. The data can only be accessed by you, AIG and our specific telematics partners. AIG takes your privacy very seriously. Please see our privacy statement for more information.
